

About the Program

The Master of Science in Health Care Administration program is designed to prepare health care professionals for leadership and management positions in organizations that serve diverse individual and community needs. The program is driven by a curriculum that applies technology, evidence based decision making, and critical thinking skills to the delivery, configuration, and management of health care services. Graduates of the MS program will pursue careers in the private sector, government agencies, health care institutions, public health interest groups, academia, nonprofit organizations, professional societies, and the military.
