Real World Education

At Monroe, we focus on individual student success. This means we do not have enormous lecture halls. Instead we have professors that know your name, who will take a vested interest in your academic pursuits and care about your success. All of our professors have extensive industry experience and are at the top of their professions in business, healthcare, criminal justice, education, hospitality and information technology—to name just a few.

Honors Program

Honors courses are available to our most academically accomplished students. In these classes, students are able to engage in advanced academic work and to participate in enhanced intellectual experiences with distinguished professors and guest lecturers. Honors students are also assigned academic advisors for academic and career advisement.

Campus

New York City — A Part of Our Campus

At Monroe, we like to think of New York City as part of our extended campus. Both our New Rochelle and Bronx campuses are just a thirty-minute train ride from Grand Central Terminal in Manhattan, which means that our students are able to take advantage of all the cultural, academic, and professional resources that the Big Apple has to offer.

The Student Activities Office makes sure to take advantage of Monroe's close proximity to New York City with trips to museums, plays, and athletic events—though our campuses have a lot going on in their own right. Each semester, students can enjoy on-campus events like movie night, Welcome BBQs and Ice Cream Socials, a 'Relaxation Zone' during finals or be part of one of our fifty student clubs.

Monroe's highly competitive varsity athletic teams and clubs are an important part of campus life. National champions, regional champions and division champions—our athletes have been very successful over the past ten years. Many of these teams can be seen playing in the Monroe Athletic Complex, nicknamed the MAC, located just a few minute walk from our dormitories.
