Bachelor’s in Public Health

The Public Health degree program provides students with a comprehensive understanding of the systems and institutions of American public health care. It also helps students to understand the systems that protect and improve the health of people and communities through education, injury and disease prevention, and promotion of healthy lifestyles. Students will be provided with the knowledge and skills to collect and analyze data, identify community needs as well as plan, implement, monitor, and evaluate programs designed to encourage healthy lifestyles, policies, and environments. The public health professors use project-based learning in the classroom to allow the students to actively participate in the learning process and apply their critical thinking skills. Students in the Bachelor’s in Public Health program have the opportunity to choose a minor in Human Services.

DID YOU KNOW?

- Monroe’s Allied Health program provides its students the opportunity to travel during their Spring Break each year to provide medical assistance and education to impoverished communities.

- The Allied Health Club includes students from a variety of majors including Public Health, Medical Assisting, Medical Administration, and Health Services Administration and aims to design, implement, and evaluate health education and promotion programs in response to the priority needs of the Monroe College student population and the local community.

- Monroe’s Human Services Club is a popular option among Allied Health students and helps to strengthen ties between the College community and Human Services organizations in the city, creating pathways for meaningful projects and career opportunities for students.

- Monroe’s School of Allied Health provides hands-on learning with a fully-functional simulated pharmacy as well as an anatomy and physiology lab, a chemistry lab, a microbiology lab, and pharmacy tech lab.

- Allied Health students have the opportunity to join the Alpha Eta National Honor Society, which promotes and recognizes significant scholarship, leadership, and contributions to the allied health professions. Within the society, students select, organize and carry out community service projects each semester.

**Student Testimonials**

**Working Professional**

"I started a 9-to-5 job and quickly realized that it was not the right career for me. I wanted to help people, and Monroe’s School of Allied Health allowed me to get my degree without having to take the time off work. Now I’m doing something that I love."  

**International Student**

"I wanted to work within the health industry because I want to help change lives. I feel like the education I’m getting at Monroe is truly leading me down that path. I’m learning from experienced professors in wonderful facilities."  

**Recent High School Grad**

"When I first started at Monroe, I wasn’t sure about the MAP schedule because I wanted summers off. But I was able to graduate before my friends and I still had the entire month of August to spend with my friends and family."
